

Through “Liliana and Peter Ilica Foundation for the Endowment of the Arts”, its officers will strive to give financial awards to:

- Young artists who have already shown a high level of proficiency, and who participate in national or international competitions in their respective field of creation and interpretation. The award will be used to advance their level of skills by providing for educational opportunities, and,
- National and international reputable performing arts Festivals. The awards will be used to advance the Festivals’ abilities to enlist artists of high level of proficiency for the Festivals’ performances.

The officers of the Foundation will review annual applications for national and international competitions and Festivals and will decide, based on available funds, where the awards will be given during each year.

These activities are provided to the Foundation by personal donations of Peter and Liliana Ilica.
